

Dear Parents

Out of Class Summer Learning

Summer is coming and what will your children be doing?

For parents, the first thought is how to ensure that they don't waste time, but how we can also keep them engaged, relaxed and challenged?

AISSL Outdoor ("AO") might be the answer you are looking for!

The AO summer programme affords opportunities for learning outside the classroom at 10 different locations of AISL Harrow Schools. Students can either develop new interests or hone existing talents, including, but not limited to, language, sports, arts and technology.

We believe in the holistic development of our students and so AO is here to serve as an extension to the school learning. Not only will students pursue special interest subjects, but they will also build up leadership potential, strengthen communication skills and collaborative strengths, critical and creative thinking. This can be accessed as part of the 5.5-day programme during this Summer in a relaxed and inspirational environment.

This opportunity will be available to all students aged 8 to 16 on a first come first served basis. AISL Harrow students will benefit from an early bird discount if registered before 31st January 2023. To access this discount, please use the following link: <https://aisloutdoor.com/discount/HARROWSTUDENT2223>.

Come join us this summer and ensure your child remains engaged and enthused, learning and having fun this summer!

For & on behalf of
AISSL Outdoor
